CAMPBELL SCHOOL DISTRICT TRUSTEES CALL NEW $600,000 BOND ELECTION

Campbell Union School District trustees have called a special election June 10 for a school bond issue of $600,000. Bond money would be used to enlarge the new schools now in various stages of planning and construction and to build another school on the Hazelwood site. The additions are needed to take care of increased enrollment that will overcrowd school buildings by 1953.

In giving the facts on the bond issue, Superintendent William C. Henley said the present building program, largely state financed, will take the district off double sessions next year, but will not take care of the increased enrollment coming from the district's large pre-school population. In figuring the footage allowed for new buildings, the state used the enrollment as of October, 1951.

The elementary school district now has an enrollment of 3100. A recent "baby count", however, showed the district has about 4100 children of pre-school age. In five years, allowing for graduation of half the present children, the population will rise to 5856.

New schools ready next fall will be filled to capacity next year, and in one case, overcrowded, Henley said. By 1953, the district will need 19 more classrooms.

The bond issue, it is estimated, will cost the average home owner about $3.25 per year. The issue would call for no tax increase for 1952-53. In 1953-53, the tax rate would increase 10½ cents per $100 assessed valuation, Henley said.

KIWANIANS SEE MOCK BATTLE AT FORT ORD

Nearly 300 Kiwanians and their wives, including seven Campbell couples, spent Kiwanis Day at Fort Ord Friday, the guests of Major General Robert B. McClure, 6th Infantry Division commander.

Climaxing the day's activities was a banquet at the Fort Ord Officers' Mess. Guest of honor Stary Gange, governor of the California, Nevada, Hawaii district of Kiwanis International, addressed the group at the banquet.

Campbell Kiwanians present included: Dr. and Mrs. W. R. Morgan, Mr. and Mrs. Carl Field, Mr. and Mrs. Clarence Nelson, Mr. and Mrs. Milt Nelson, Mr. and Mrs. Ray Bishop, Mr. and Mrs. Fred Jones, Mr. and Mrs. Mark Purmort.

Kiwanians from Campbell, Monterey Peninsula, Salinas, Gilroy, Watsonville, Freedom, Central Santa Cruz County, San Lorenzo Valley, San Jose, Willow Glen, Los Altos, Los Gatos, and Mountain View took part in the day's activities, which began early in the afternoon.

The Kiwanians were taken on a tour of infantry training that included a mock attack of a simulated Heartbreak Ridge with live ammunition and shell fire.

Wives of the Kiwanians were conducted on a tour of the post's facilities, including the hospital, Information and Education Section and Special Services.

Later the ladies joined the men in viewing a spectacular display of the firing of combat weapons. Rifles, grenades, flares, flame throwers, mortars and rocket launchers were fired in the demonstration, a regular phase of training.

COUNCIL ADOPTS ZONING ORDINANCE; DISCUSSES BUSINESS LICENSE TAX; WARNS OF FUTURE ANNEXATION MOVE

Key matters discussed by City Council Monday night concerned future San Jose annexation moves threatening Campbell city limits, adoption of an interim zoning ordinance, question of a business license tax, a garbage disposal contract and a subdivision map ordinance.

Mayor Richard W. Morton told the council that he had been "reliably informed" that San Jose is presently surveying an area south of Moorpark Avenue north of Hamilton Avenue, east of San Jose-Los Gatos Road, and west of Meridian Road in anticipation of an annexation move for storm drainage control.

"San Jose is surveying a pattern adjoining our northern boundary," the mayor said.

City Council directed City Attorney Joseph A. Bonacina to find out the legal standing of the City of Campbell in regard to proposed San Jose annexation of Willow Glen No. 10, an area in the Cambrian Park district. Bonacina said that as a municipal corporation, Campell should have some say in the matter if the territory lies within the three-mile limit.

City Council adopted an interim zoning ordinance, immediately effective until iadoption of a permanent ordinance.

The ordinance decrees:

1. City Council must pass on permits for construction of buildings other than single family dwellings.

2. Permit applications must be written, accompanied by a $15 filing fee, (presently to be filed at Morton's law office on E. Campbell Avenue, due to illness of City Clerk Mrs. Viola Krug).

3. Public hearing will be held not less than 15 days after filing date.

4. Notice of hearings will be published in the Campbell Press five days before the date of hearing.

5. Provision will be made for present non-conforming uses, not to be extended or restored at termination of present use.

6. Single family dwellings must conform to present County lot restrictions.

City council agreed to consider an amendment next week which would require a deeper side setback. This action followed an objection by Al Weeks, 123 North Third Street, a building contractor, who said present five-feet setback is inadequate.

The council referred to committees for detailed study, the question of a business license tax, a garbage disposal contract and a subdivision map ordinance.

The council agreed that full public hearings should be held on these matters, but the Mayor urged that they be adopted before May 30 to be effective July 1, the start of the fiscal year.

"This will eliminate bookkeeping confusion," the mayor said. "A subdivision map ordinance is important because county regulations no longer apply," the mayor said. "Campbell must provide in the light of its own needs for such things as storm drainage, curbs and gutters," he added.

The City Council also:

1. Directed the city attorney to determine Campbell's position with public utilities in regard to city street use.

2. Learned that a city seal, designed by Anderson Stamp Company, would be available for inspection by next meeting.

3. Refered to County Planning Commission a request for a building permit from Peter Kristich, 130 North Second Street.

4. Filed an application for a rest home permit at 230 S. Winchester Road.

5. Agreed to permit the sale of fireworks in the City of Campbell subject to provisions of state law with volunteer fire chief Jack Scott as Campbell agent.

6. Deferred action on written letters from Robert L. Baker concerning position as City Accountant, and Don Reinoehl concerning storm damage.

SCHOOLS HALT ANNEX MOVE TILL HEARING

Officials from Campbell Union High School District, Union School District and Cambrian School District held up San Jose plans to annex South Willow Glen No. 10 until a public hearing May 12.

School authorities argued proposed annexation would work a hardship on administration of their districts.

Kenneth A. McDonel said Cambrian Park school children would have to travel five miles to Willow Glen, the nearest high school.

Attorney Charles Luckhardt, representing Cambrian School District, requested a public hearing on the matter. Luckhardt objected to San Jose's hastē, and argued that interested residents had not been allowed to air their views. City Manager A. P. Hammann of San Jose requested immediate action on the proposed annexation so that it may be acted upon at once by San Jose City Council.

Other school administrators present at the meeting were Laurance J. Hill of Campbell Union High school district, and Frank Steindorf, trustee of Cambriian district.

Area in question embraces some 3855 acres south of Dry Creek Road. Proposed annexation begins at Husted and Plummer Aves., extends 200 feet west of the projection of Booksin Avenue, south to the south side of Foxworthy Avenue, west along Foxworthy to a point east of Ross Avenue, north past the projection of Cherry Avenue, west past New Jersey Avenue, and south to Camden Avenue. Ultimate plan is to take Cambrian Park into San Jose's southern boundary. This action (annexation of contiguous uninhabited areas) follows a previous move by San Jose to annex 10 acres of Cambrian Park by means of "strip" annexation.

Another District Improvement Club Is Formed For Moreland Manor Tract

Fifty-one interested residents of Moreland Manor met at the home of Colonel S. S. Stocking Tuesday evening to form the Moreland District Improvement Club, which embraces the Moreland School District.

The club formed in order to secure from the county services to which they feel they are entitled, such as street repairs, fire hydrants, lighting, curbs, gutters, sanitation and other matters. Already a group has been formed with the same aims and purposes in the Cambrian Park area.

The association will meet again Monday night at the home of Chairman Ben W. Mayo, 591 Rosalia, in the Moreland Manor tract and will shortly issue invitations to groups in other areas planning similar action. The group feels that banded together clubs will be influential enough to sway public opinion. A public meeting will be announced at a later date, to which interested residents are cordially invited.

Interrogation also revealed, the patrol reported, that these same boys had previously stolen an auto from Cheffield Motors last week and had damaged a fender while returning it. They were in the act of "borrowing" it again when the patrol was called, deputies said.

The boys were turned over to the Sheriff's office for disciplinary action.

Gardeners Should Select Grass Seeds To Fit Specific Areas And Purposes

Buying grass seed is about the most important step a home owner can take as far as the garden is concerned; there is a grass seed to fit every purpose.

Most nurserymen advise you to have this in mind when you go out to buy seed and add that every package is tagged with a label showing the exact percentage of each kind of seed in the mixture.

Types of basic grass seeds in good lawn mixtures are as follows:

Kentucky Blue Grass, a premium grade grass which is the basis of nearly all lawns. It has a fine blade, is usually included at a rate of 50 percent of the mixture. Purpose is to build both body and beauty in the lawn and is best in the sun.

It should be cut no shorter than one and a half inches so that the roots remain cool.

Astoria Bent. The bent grasses are turf builders, creeping in habit and very fine leafed. Mixtures rarely contain more than about ten percent, since seeds are extremely small and germination is high.

They are sown at a rate of about one pound to 300 square feet. Bent grasses like sun and partial shade, are extremely acid tolerant, stand cold weather, but like blue grass, need care in hot weather. Solid bent lawns often are found, but they represent problems in care since they must be thinned every three yars, ned a special mower and good water management.

Creeping fescue, similar to Bent in character, except that it has coarser blades. They do well in shade and sandy locations because of deep rooting tednencies.

Perennial Rye Grass is a fairly coarse grass of strong growth which often forms the bulk of less expensive mixtures. The seeds germinate fast.

PHLOX MAKES GOOD BORDER

One of the best perennials for border mass planting is Phlox.

Some of the varieties especially colorful include: "Salmon Glow," "Beacon," "Europe" and "Leo Schlageter." Plants should be embedded in rich soil containing well-rotted manure, in a sunny spot. Mulch around the base with peat moss to keep roots cool in summer. Irrigate, do not sprinkle, giving plenty of water once a week. Spray with calcium polysulphide foliage strength at the first sign of mildew.

Agricultural gypsum spread over a heavy adobe or clay soil and worked in along with a liberal amount of well-rotted barnyard manure will do wonders in breaking up the soil and making it more pliable and easily worked. It will also reduce packing and baking of the soil.

Marin County Amateur Camellia Expert Shares Secret With Local Gardeners

Mario Arata, a widely known amateur camellia and azalea expert of Marin County, has shared his method of propagating azaleas with several Campbell gardeners interested in propagating the plants in hot houses.

Arata carefully prepares the soil first. He uses plasterer's said which he washes several times. this sand is placed in an apple box in the bottom of which he has bored holes. The sides of the box are built up with pieces of glass which protrude about six inches above the small slips.

Arata then tears slips from the old plants at the crotch. These are about two inches in length. He makes no clean cut, but places the jagged slips in the said, covering the lower leaves.

When the box is filled he puts glass over the top. The built-up sides allow plenty of room for circulation of air.

During the entire time the slips are in the growing bed, the sand is kept moist, but not wet. Arata has found better results are obtaiined if the light filters through from the top.

Once the slips are rooted, they are transplanted to little boxes made of the material used for berry boxes. These are four inches by four inches and 5½ inches in depth. They are filled with a mixture of one part each of sand and topsoil and two parts of oak leaf loam.

This soil should come to about one and one-half inches from the top of the boxes. After the small azaela plants are transplanted in these boxes, they are set upon flats which have about a half-inch of said in the bottom.

The plants can be left in these transplanting boxes from two to six months. They then are ready to be set out in the open ground or placed in the permanent containers where they are to grow.

CAMELLIAS LIKE ACID SOIL

Camelias, azaleas, rhododendrons, gardenias, fuchsias, and even roses like a soil which is slightly acid. Our soil here in Campbell and in most sections of the Santa Clara Valley is alkaline. To create an acid soil condition, dissolve one ounce of iron sulphate in two gallons of water and pour it around each of your plants. Repeat once a month for three months. The foliage should change from a pale yellowish green if suffering from lime-induced chlorosis to a healthy rich green.

Makes Home Work Much More Fun

Women shopping for new wallpapers will find it a simple and stimulating experience now rather than the burdensome, often confusing task it used to be. A completely new type of wallpaper sample book being introduced at the Strong Paint Store, Campbell avenue, has just been developed by United Wallpaper, Inc., to act as a self-help decorating guide for homemakers who, through necessity or enjoyment do their own decorating.

The book, "Your Home and How to Decorate It," also serves to introduce Talisman Wallpapers, a new brand name product offering many advantages not found heretofore in conventional wallpapers, including precision pre-trimming for easy hanging, and packaging for added cleanliness and safer storage.

Dr. John Rhoads New President Of Camellia Society

New president of the Santa Clara Camellia Society is Dr. John E. Rhoads who succeeded Viggo Haugaard for the 1952-53 term on a white ballot recently.

Elected vice-president was Jack Batten, while Ken Boosey was re-elected as secretary-treasurer for a second term. Board of directors includes Tony DeLorenzo (re-letcted and Ted Cardew, both for two-year terms, and Earl Perry, to fill unexpired term of Dr. Rhoads, and George Theobald to fill unexpired term of Batten.

Nominating committee chairman was Ted J. Monis.

Outgoing officers in addition to Haugaard, are Don Hughes and Louis Bergna.

Program for the session featured the film, "Camellias and Azaleas" shown by the California Spray Chemical Co., with John Paul Edwards, famous garden authority, as narrator.

Three states in Mexico account for approximately 85 percent of that country's coffee production.

Robert C. Doerr Joins Race For Assemblyman

Robert C. Doerr has announced his candidacy for Assemblyman in the 29th Assembly District.

In a preliminary statement of candidacy, Doerr said he believes

ROBERT C. DOERR
. . . Candidate for Assembly

his District needs strong representation in Sacramento. Concerning the highway system in California, he said, "In our own county, the Monterey Highway should be widened and divided to a four-lane thoroughfare throughout its length, and the Route 5 Freeway from Los Gatos through San Jose to Oakland should be rapidly completed."

Doerr said he favors enactment of legislation which will provide financial assistance to counties and cities so they may install safety devices and construct essential under or overpasses in cooperation wtih the railroads in question.

"The water needs of Santa Clara Valley must be continuously studied and met," Doerr said. "Since 1946, I have taken an active part in working with the Santa Clara Valley Water Conservation District to build Anderson and Lexington Dams. I shall actively continue the fight to develop all local sources of water, and will give all possible assistance to the southern part of the county for speedy construction of such projects as the Uvas and Llagas dams.

Doerr said he favored the improvement and enlargement of the public school system to met the present extreme shortage of both classrooms and teachers.

"The public school system is the very heart and core of our American democracy," Doerr said.

Doerr is a native of San Jose and attended San Jose State college and Stanford University. His father, Fred Doerr, retired business man, formerly served 18 years as San Jose councilman. His teaching career began in 1937 and was interrupted with three years in the Army in Counter Intelligence Corps in Germany.

Doerr lives with his wife, Jane, daughter Susan, and son Bobby, in San Jose. He is affiliated with the Masonic Lodge, Royal Arch Masons, and Knights Templar.

Mr. and Mrs. HENRY HERMONIE of South San Francisco and their children JANET and LARRY visited the Burdas and Mrs. EMMA BULLINGTON, mother of Mrs. Hermonie and Mrs. Burda, over the weekend.

TROUT FISHING STARTS MONDAY

Trout fishing conditions in the Santa Clara county are excellent and anglers can legally start casting Monday, May 3, one hour before sunrise, according to the California Department of Fish and Game.

Stevens Creek and reservoir are excellent, the department announces. Black bass and bluegill conditions are top notch in Anderson and Coyote reservoirs.

The recent heavy rain and snow in many northern California areas mean muddy waters, inaccessible roads, and fussy fish. Water conditions in limited southern areas are the best in years, but in some cases, important fish planting operations were delayed by winter storms.

DEMOS DROP DOERR OVER SCHOOL TAXES

Vol. 139, 76, 10th year
Saturday, April 19, 1952
San Jose Evening News

By CHARLES GOODMAN

The Santa Clara County Democratic Central Committee has withdrawn its support of Robert C. Doerr for the29th Assembly District because of his stand in favor of taxing parochial schools, it was learned today.

Doerr, a San Jose City Councilman, and a public school teacher, is seeking the nomination in the June 3 primary in opposition to Warren Wilkie, also a Democrat, and Bruce Allen, a Republican. All three men have cross-filed.

Leader of the opposition against Doerr is John P. McEnery, long-time Santa Clara County Democratic leader and recent appointee by President Truman as director of the U.S. Mint in San Francisco.

Withdrawal of previously given unanimous support to Doerr was by a 16-2 vote of the central committee Thursday night, with 11 of the votes by proxies.

In a statement to the San Jose News today, McEnery declared:

"The parochial school issue is one of the reasons for my opposition to Doerr.

"The Legislature has already voted unanimously not to tax parochial schools. As a voter and a Democrat, I have a right to see that this district is represented in the Assembly by some one who feels as I do about many of the issues that affect California and a large group of the people.

"If Doerr were the only Democrat running, I might support him; but if the Republican running against him held my views on these issues, then I would support the Republican.

"Most Democrats in this district feel as I do on the parochial school tax question, and now the issue is joined.

"I will support Warren Wilkie for the nomination because he is the kind of a man I'd like to see representing this district in the legislature. He owns his own business and is completely independent of any influence from any source."

McEnery indicated that he would seek endorsement of Wilkie by the central committee if Doerr doesn't withdraw from the race. The by-laws of the committee provide that it shall not endorse any candidate except by a two-thirds vote of the membership and unless the membership is notified an endorsement is intended at the meeting previous to the one in which the actual endorsement is made.

Doerr was endorsed for the nomination by the committee before actual filing was closed. Wilkie, a San Jose lumber dealer, filed for the Assembly nomination on the last day of filing.

Doerr replied to McEnery's charges by declaring first, flatly, that he was in the race to stay.

"Mr. McEnery," he said, "assumes that because he has 11 committee members' proxies in his pocket, he also has the voters of Santa Clara County in his pocket."

"I do not for a moment believe this, and if the opposition does, it is in for a rude awakening. The voters of Santa Clara County are simply not the type to knuckle under to 'machine' dictation. They have shown this time after time in the past, and, I am sure, will do so again this time.

"The parochial schools tax question is a major issue only if Mr. McEnery insists on making it one. I have always believed that a firm separation of church and state is one of the cornerstones on which our great democracy is built.

"My long service in the public school system, a system which is paid for by all Americans, and available to all Americans, regardless of race, creed or color, has been because of this belief. I also believe in the right of any dissenting minority to set up its own additional, or even separate, system of schools, provided it does not attempt to do so at the expense of the people as a whole."

Chrysler V-8 Saratoga Sedan, gasoline economy winner in Class "F". Entered and driven in the 1952 Mobiloil Gas Economy Run by Chrysler Dealer Mel Asbury, Hollywood. It was one of three Chrysler FirePower V-8's to win in their respective classes.
MOBILGAS
ECONOMY RUN
CHRYSLER

180 HP CHRYSLER V-8 FIRST IN 3 CLASSES IN ECONOMY RUN!

Here is truly dramatic proof that Chrysler's great new FirePower 180 HP V-8 engine design sets an entirely new standard of efficiency among American passenger car engines!

In this annual economy test, rigidly supervised, and limited strictly to stock car entrants, cars competing are divided, by price and size, into 11 standard classes. The route, from Los Angeles to Sun Valley, covered 1,415 miles of every possible kind of driving. Average speed for all cars was just under 41 miles per hour.

And in 3 of the 11 classes, the Chrysler V-8 engine was best for gasoline mileage.

In Class "F", this magnificent new engine won first place for a Saratoga 6-passenger sedan (125½-inch wheelbase, 4010 pounds). In Class "H", it won first honors for a Saratoga model 8-passenger sedan (139½-inch wheelbase, 4510 pounds). And in the top price and size, Class "I", it was again first, in a Chrysler Crown Imperial Sedan (145½-inch wheelbase, 5360 pounds).

To travel these substantial cars at this speed under these conditions gives additional proof, we believe, that here in the FirePower V-8 engine is the finest and most efficient engine ever put into an American passenger car!

WE INVITE YOU TO DRIVE THIS ENGINE, YOURSELF . . .

The same engine which has just scored these remarkable accomplishments is no farther from you than your own Chrysler Dealer. He will welcome the chance to let you take the wheel and feel for yourself what Chrysler has done . . . not only in engine performance, but in power steering, power brakes, new shock absorbers, passenger comfort . . . to deserve the title: *"Finest Car America Has Yet Produced!"*

CHRYSLER *the finest car America has yet produced*

DRIVE A CHRYSLER Today! Learn the Difference!

Dear Mom,

Monday is our birthday—beginning our fifth year! We can't have a party as I'd planned, but I'd like to say "Thanks a lot!" to all who have made this year possible. Being away has made me feel doubly grateful.

Tommy

P.S. Should we now say, "since 1948?"

'ALUMNI'

By Jean Standish

(Readers are invited to contribute to this column.)

Richard Morton, first mayor of Campbell, was graduated from Campbell Union High school in 1933, and the "Oriole," CUHS year book, stating that young Richard's hobby was "cutting a figure," prophesied that in 1945 he would be advertising manager for the "Campbell Gazette." Morton managed the basketball team in '33, was a member of the tennis team, played a leading role in the senior play, "The Sky Train," and was editor-in-chief of the "Oriole."

Our mayor, a partner in the law firm, Miller, Morton and Wright, in San Jose, is married to the former Betty Herold. The Mortons have three children: Raymond, 10; Jane, 6, and Ronnie, 4.

Back in the 1870's, before CUHS was founded, Hamilton School stood on the San Jose-Los Gatos Road near the spot where the residence of Mr. and Mrs. M. J. Bollinger now stands. A boy named M. J. Bollinger, son of Campbell pioneers and himself a native of Campbell, attended the Hamilton school. Some years later, Mr. Bollinger married Miss Maybel Himan, a native of San Jose. In 1952, while a new Hamilton school is being planned, Mr. Bollinger is looking forward to his next birthday, when he will be 80 years old.

All three children of Mr. and Mrs. M. J. Bollinger are alumni of Campbell Union High school. In the "Oriole" of 1928, an epigraph beside a picture of Bertha Bollinger runs, "A mind she hath which has ne'er known defeat. In the Class Will, Bertha did "serenely donate (her) school-girl complexion to one of those girls who is forever making one of her own." She was destined, according to the Class-Prophecy, to tour Europe, giving lectures on beauty culture. Bertha is now Mrs. Werner Raab, second grade teacher at Moreland Grammar school. Mr. Werner Raab, also an alumnus of Campbell Union high school, is employed in the electrical department of the Californa Prune and Apricot Association. The Raab children are Anita, 13; Laura and Verla, both 12; and Loren, 7. Mr. and Mrs. Raab belong to the Campbell Grange and are active in Congregational church affairs.

Byron Bollinger, whose hobby, says the "Oriole," was "driving a puddle jumper, was graduated in 1933. He distinguished himself in high school basketball. Now superintendent of buildings and grounds at San Jose State college, Byron is married to the former Helen Figley, an alumna of San Jose High school and San Jose State college. Their children are John, 10; Jim, 7, and Jane, 5. Byron is a prominent worker in faculty-sponsored college activities.

Ruth Bollinger, said the "Oriole" of 1930, was fair without, faithful within." Nicknamed "Mick," Ruth willed her ability to write book reports to "Red" Mirassou, and was to be a noted aviatrix, according to the Class Prophecy. She is, instead, married to Lloyd Brown, also of the class of '30, CUHS, who is salesman for Dorrance Co., advisor for Brown Manufacturing Co., and a partner in Hosmer Manufacturing Co. The Lloyd Browns live next door to the M. J. Bollingers and have two sons, Donald, 12, and Bruce, 10. Mrs. Lloyd (L. W.) Brown is a member of the Children's Service Guild and Red Cross, giving much time to work at the County Hospital, a member of the Campbell Garedn Club, the Country Woman's Club and PTA, in all of which she has held offices, and is currently a member of the Fair Board. Mr. Brown has been active in cub scouting, scouting and sea scouting, is president of the Advanced Circle, Folk Dancers, San Jose, and vice-president of Cirlce 8 in Campbell.

Noel Brown, Lloyd's brother, was graduated from Campbell Union High school in 1926. "A brain he has that never errs," says the "Oriole" for that year. Noel "willed" his winning smile and sparkling orbs to Dot Duncan and his ministerial air to Mr. Cutting. He is now owner of Brown Manufacturing Co. (die making and punch press making) and partner in Dorrance Co. and Hosmer Manufacturing Co. His wife, Agnes, grew up in Visalia and was graduated from San Jose State college. The Browns are affiliated with the Congregational Church in San Jose. They have three children: Patty, 11; Bobby, 8, and Glen, 2.
